Railroad House,

NEAR THE DEPOT.
HANOVER, YORK CO., PA.

The undersigned would respectfully inform his numerous friends and the public generally, that he has leased the Hotel in Hanover, near the Depot, formerly kept by Mr. Jeremiah Kohler, and will spare no effort to conduct it in a manner that will give general satisfaction. His table will have the best the markets can afford—his chambers are spacious and comfortable—and he has laid in for his bar a full stock of choice wines and liquors. There is stabling for horses attached to the Hotel. It will be his constant endeavor to render the fullest satisfaction to his guests, making his house as near a home to them as possible.—He asks a share of the public patronage, determined as he is to deserve a large part of it. Remember the Railroad House, near the Depot Hanover, Pa. A. P. BAUGHER.

Great Conowago Mills.

10,000 BUSHELS OF WHEAT WANTED.

The undersigned, having remodeled and improved his Mills, near New Chester, Adams county, (formerly called "Walnut Grove," but now "Great Conowago Mills,") is prepared to do all kinds of work in his line with unusual dispatch.

Constantly on hand, for sale or exchange, the very best qualities of Super, Extra and Family FLOUR, also Rye, Corn and Buckwheat Flour, with every variety of Chop and offal of wheat.

Having a SAW MILL attached, he is prepared to saw all kinds of lumber, at the shortest notice. A farmer in need of lumber and flour, can put a log upon his wagon, throw a few bushels of wheat on the top, have the wheat exchanged for flour and the log sawed, thus saving a double trip—and all because of the new and perfect machinery now employed in these mills.

Having the best of workmen, he will be able to please everybody. Thankful for past favors, he hopes for a continuance of the same. H. J. MYERS

Latest Fashions

DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)

SKIRT.

THE WONDERFUL FLEXIBILITY and great COMFORT and PLEASURE to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in crinoline, not found in any Single Spring Skirt.

A lady having enjoyed the PLEASURE, COMFORT, and great CONVENIENCE of wearing the DUPLEX ELLIPTIC STEEL SPRING SKIRT for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down steps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape, finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against IMPOSITION be particular to NOTICE the skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt.

FOR SALE in all Stores where FIRST CLASS skirts are sold throughout the United States and elsewhere.

Selected Poetry.

ONE BY ONE.

One by one the sands are flowing,
One by one the moments fall;
Some are coming, some are going,
Do not grasp to catch them all.

One by one thy duties wait thee,
Let thy whole strength go to each;
Let no future dreams elate thee,
Learn thou first what those can teach.

One by one, bright gifts from heaven,
Joys are sent thee here below,
Take them readily when given,
Ready, too, to let them go.

One by one thy griefs shall meet thee,
Do not fear an armed band;
One will fade as others reach thee,
Shadows passing through the land.

Do not look at life's long sorrow,
See how small each moment's pain;
God will help thee, for to-morrow,
Every day begins again.

Every hour that flees so slowly,
Has its task to do, or bear;
Luminous the crown, and holy,
If you set each gem with care.

Do not linger with regretting,
Or for passing hours despond,
Nor, the daily toil forgetting,
Look too eagerly beyond.

Hours are golden links, God's token
Reaching Heaven, but one by one
Take them lest the chain be broken
Ere the pilgrimage be done.

Agricultural & Domestic.

For the Gettysburg Compiler.

STOCK RAISING.

Knowing the interest you take, and is shared by the community at large, in your agricultural column, and of which you have a just right to be proud, as no county paper in the State contains more well selected articles upon the various subjects of agriculture than the COMPILER—I have contemplated for some time calling the attention of farmers to the importance of stock raising.

In the first place, there are no better hay lands in America, when improved by *lime*, or other fertilizers, than the farms of Adams county.

In the second place, the markets of the Northern and Middle States will always insure the farmer a good price for his stock, as they will hereafter have to depend almost entirely upon their own resources for their supplies. The Western States, from whence large droves came annually, now find a nearer and better market in the territories which have lately sprung so rapidly into existence upon their borders, and where for many years there will be a constant demand.

In the third place, that it is profitable every farmer knows, especially renters who farm upon the shares, as labor is so high and scarce that it is not so profitable to raise grain for market, even at the high prices now raging.

But let the farmer raise a sufficient amount of grain for home consumption, and some to sell besides, in order that he may keep his place well cultivated; and then, instead of packing and shipping his hay into market, feed it upon the place and sell stock. I don't recommend a large amount of stock, poorly fed, but choice and well fed stock, and farms that cannot be made to yield at present three per cent. will realize double that amount. Quite a number of our *best* and *most successful* farmers have already woke up to the importance of this branch of farming, and their horses, cows, calves, butter, eggs, &c., find a ready market in our large Atlantic cities.

Our Agricultural Fair, if properly managed, will do much toward encouraging stock growing in Adams county, but private enterprise in importing good thoroughbred stock, will do more, and will yield a ready profit, besides establishing, eventually, a channel of trade that will be permanent. Already I have heard of enormous prices realized by some of our stock growing farmers for horses and cows, and I feel safe, in assuring our farmers that the present high price of stock is not inflated by any temporary cause and liable to tumble down at any moment, but permanent, and will increase from the very nature of the case. I may say more hereafter upon this subject. EAGLEWOOD.

CORN PLANTING.

From a seasonable article in the *Farm and Fireside*, on "The Corn Crop and its Cultivation," we make the following interesting extract. After remarking that in planting corn, it should be covered "evenly and not too deep," the writer goes on to say:

Many are of the opinion that it makes but little difference in the *general* result, whether the corn is one or three inches deep. Experiment will convince any one that this idea is a mistaken one, and hoping that some of my readers will try similar experiments, I will give the result of one which I have tried for the two past seasons, which, though only tried with corn, may be applied equally well to wheat, oats, or any plant producing a jointed stem.

In the experiment alluded to, the different rows were all treated alike (except in the depth of planting,) and were planted as nearly as possible at the same time with seed from the same portion of the ears. That planted one inch deep came through in eight and three quarter days; the next rows were each one planted half an inch deeper than the preceding one, and the last one was put in *six inches* deep. The last five rows came through in nine and one quarter, ten and one half, eleven and three quarters, twelve and one quarter and thirteen days, respectively. That planted six inches deep came up very pale and unhealthy, and after lingering three days, died. Many will no doubt think that the last three or four were greatly exaggerated cases; so they were, but they were important in carrying out the end I had in view.

Careful examination will show us that after the point of the sprout has reached a distance of one and five-eighth inches from the grain, it commences to form the first fruit; and experiment will demonstrate that if this point is more than half an inch below the settled surface, the stalk will send out a new set of roots from it; the same experiment will demonstrate that while these new roots are being formed, which will generally be about the time the first two leaves are fairly formed, the plant, as far as perceptable growth is concerned, will remain stationary for from one to ten days, when it will again grow as usual, but will seldom, except from local causes, overtake its less deeply planted companion. Corn planted four and a half inches deep, took two of these stationary spells, but after it recovered, the adjoining corn, planted but two inches deep, was two feet high, which difference not only was preserved, but was materially increased, and the deeply planted was further behind.

My experience is, that upon no account should corn be covered more than from one inch and a half to two inches deep, and of the two, I would prefer the former depth. Many have complained that after coming up properly, those portions of the field which were expected to do the best will often seem to remain stationary for from one to two weeks, and then resume their growth. May it not be the case that these better portions are in better order and "good covering" unintentionally induced *deeper planting.*

AN INTELLIGENT HEN.

The Washington (Ga.) Gazette has the following:

Danbury, March 28.—Mr. Editor: I warrant that I have got the most intelligent and peculiar fowl either in Wilkes or Lincoln counties. She is quite a large sized hen, between the common dunghill fowl and the Shanghai. My little daughter can take the hen upon her knees and pat her on the back and say "sing, Betsy," (for that is her name,) and she will begin to sing as requested. She will then say "sing loud, Betsy," and she will then sing at the very top of her voice, which is very loud, for she has an excellent pair of lungs. She will say, "sing soft, Betsy," and she will change from the loud tone to a very soft one. And to cap the climax, in the way of obeying and pleasing the children, my little niece put Betsy in a chair the other day, and began to pat her on the back, saying at the same time, "lay me an egg, Betsy." Betsy sang a very short, soft song, and then stood up in the chair, and to the great delight of the children, there lay in the chair an egg. She will follow my wife all over the house, yard, and garden, just like a pet dog, and will sing or not, as she is directed to do.

UNDERDRAINING LAND.—Experiments in underdraining land were made in Scotland last year for the purpose of determing the effect on the temperature of the soil, compared with that in the same vicinity which was not drained. The result was that the draining raised the temperature 1.5 degrees, equal to a removal of the land from one hundred to one hundred and fifty miles South. This is an important consideration connected with compact, heavy soils whose retentiveness of water renders them cold and comparatively inert with respect to vegetation. Draining land involves considerable expense, but its increased productiveness soon repays this, besides assuring increased profits for the future.

PROTECTION FOR CHERRIES.—A distinguished fruit grower informs us how he keeps cherry-eating birds from his trees. He has a number of small bird-boxes hung on the trunks or large limbs of his cherry trees. These boxes are occupied, every season, by the little wrens, which are remarkably pugnacious birds. No sooner does the cherry-bird, robin or other fruit-pilferer, come to the trees, than the wrens offer them battle; and if not victorious, succeed in driving off the thieves.

CROP PROSPECTS FOR 1867.—The New York Commercial publishes upwards of two columns of reports on corp prospects, comprising one hundred and ten accounts from different localities, North and South, all of which, with but four or five exceptions, unite in representing the prospect as being most encouraging for both cereals and fruits.

FAST WALKING.—The Germantown *Telegraph*, in speaking of breaking colts, says during the operation of halter breaking, great care should be taken always to make them walk fast; fast walking should be made a part of their education, and they will never forget it during after life. I know of no colt which may not be made a good walker if properly trained when young, but this is a fast time, and walking is too slow to keep up with it.

☞ A new cow-milking appliance has been invented and exhibited in Boston. It is made of rubber and worked by an easy motion of the hand, draws the milk from all the teats at once in a most calf-like manner, making pauses at intervals like a calf swallowing. By its aid a cow can be milked in about two minutes.

☞ Prof. Breunglesser, of Berlin, has, by feeding poultry on certain preparations, succeeded in making hens lay eggs, the shells of which are of any required thickness, and so strongly impregnated with iron as to seem as if cast from that metal. A number are exhibiting at the Paris Exposition.

☞ The New York Gazette estimates that one million of eggs are consumed each month in that city. The Fifth Avenue Hotel consumes about one barrel each day, and the Astor House about four thousand each day. A woman in Fulton Market sold 175,000 in ten days.

☞ A cow belonging to Charles M. Marr, of Union, Maine, dropped a bull calf, April 9th, which weighed 120 lbs.

BEEF CAKES.—Take the best sirloin of beef, one pound; boil it until soft; boil also a beef tongue until soft. Take one pound of tongue, chop it and the sirloin very fine, with quarter of a pound of suet, and a quarter of a pound of raisins. After you have made them as fine as you can, add pepper and salt to taste, also one teaspoonful of allspice, one onion chopped fine, one tablespoonful of flour. Mix all well together, form into cakes, and fry in butter.

DUTCH CAKE.—Half a pound of butter, one pound of sugar, on pound raisins, one pint of milk. A wine-glass of rose-water or brandy, two eggs, one nutmeg, a cup of yeast. Make a stiff batter.

Choice Miscellany.

The Coming Weather.—French Scientific men predict that the Summer of 1867 will be cold and wet like that of 1866, and they base the prediction on the fact that immense masses of ice have broken or are about breaking away from the extreme North, producing cold and vapor. These prognostications, however, are not much to depend upon; for it will be recollected that last Fall, the usual quantity of small fruits, nuts, &c., and various signs besides, augured a very mild Winter, especially in the West. Everybody's recollection will tell whether it was so or not.

☞ Another council has been held by General Hancock with the chiefs of the Kiowa and other tribes of Indians on the plains. The direction of this column of troops is southward. After treating with the Camanches in that quarter, they will turn north and quiet the Sioux and Cheyennes. In Arizona, the Indians are at work, murdering the whites, running off stock, and committing mischief of all kinds. A general Indian war now seems imminent. The government should remember the Florida war, and make this campaign against the red skins "short, sharp and decisive."

☞ John Morrissey gets credit for being one of the best behaved members of the Rump Congress, as well as one of the most attentive, practical and sensible.

CORRUPTION IN OUR LEGISLATIVE BODIES.

Never in the history of any country were legislative bodies so corrupt and venal as they are in the United States to-day. Since the advent of the Radicals to power all sense of public honesty seems to have been lost. In the lower House of Congress, in the Senate, in each branch of the different Northern State legislatures, everywhere in short, bribery and corruption have come to be the order of the day. So common has it grown to be that it is regarded as a matter of course. People have ceased to wonder at it; and by the re-election of men known to be dishonest and mercenary have seemed to sanction it.

Radical newspapers admit that members of Congress belonging to their party are perfectly venal; they charge their own men in the United States Senate with being corrupt and mercenary; and acknowledge that the State Legislatures which have been under their control have disgraced the several States in which they have been assembled. How completely rotten must a party be when it is compelled to make such an exhibition of its corruption.

It cannot be long before the people will have their eyes opened. They cannot and will not sustain such a debauched political organization. The masses are honest, and they will yet brand official dishonesty with the stigma of disgrace which should attach to it.—*Lancaster Intelligencer.*

THE DISSOLUTION OF THE REPUBLICAN PARTY.

We again call attention to the following extract from the letter of Wendell Phillips to the "New York *Anti-Slavery Standard*," which letter we published yesterday:

The seeds of dissolution have been sown in the Republican party. Perhaps I should say that the party always contained the elements of its own destruction, and that it only required the provocative circumstances to develop them. At any rate the development is visible to the common eye, as it has long been seen by those whose habits of close observation have given to their mental vision a clear sight."

Whatever we may think of Wendell Phillips, he has always, in the past, proved a good political prophet. When the Republican party was organized, he being for a dissolution of the Union, hailed it with joy. He declared that, as a pure and sectional party, it was for dissolution purposes—the first "crack in the iceberg." So it proved. Having predicted what it would eventually effect, he now sees, and does not hesitate to declare, that it is in process of destruction—that "the seeds of destruction have been sown, and that circumstances are rapidly developing them." Let Democrats and conservative men everywhere take heart and courage. The monstrous organization that has so tyrannized over the country is falling to pieces, and its baleful star will go down the political horizon as rapidly as it rose. Again, we repeat, the emigration into the Democratic party has commenced, and is proceeding at a most gratifying rate.—*Cincinnati Enquirer.*

NEGROES IN CARS.

If a white man unaccompanied by a lady, (no matter how much of a gentleman he may be,) attempts to enter a railroad car devoted to ladies and their escorts, he is stopped by the conductor or brakesmen and sent into a car devoted exclusively to men. Remonstrance is useless, and there is no rule or law by which he can compel a conductor to allow him to choose a car and a seat for himself. On the other hand, if a negro, unaccompanied by a negress, (no matter how dirty, hideous or ill-behaved he may be,) offers to get into the said ladies' car, the conductors and brakesmen are bound by the late Law passed by the Radicals of the State legislature to allow him to do so. If they do not, both they and the officers of the railroad company by whom they are employed will be liable to prosecution, fine and imprisonment. Is this negro equality? No; it is more; for, under that law, a white man has not the same privileges as a buck negro. Any he-darkey can enter the ladies' car and force himself into the same seat with a white lady, and no one, except at the risk of fine and imprisonment, can prevent him; but no white man can so much as enter the car. For all these "blessings," good ladies and gentlemen of Pennsylvania, you are indebted to the Radicals of the Legislature, who passed the bill, and to John W. Geary, who signed it. Don't you feel thankful to them?

HUNNICUTT.

We suppose all readers of newspapers have heard of the notorious Hunnicutt, a loud-mouthed "loyalist" of Virginia who is now engaged in making incendiary appeals to the negroes. A few nights ago he made a speech to the darkies of Petersburg, which brought out a letter in the Index, written by a former acquaintance, showing up this vile old hypocrite. What a portrait for a "loyal" man! It says:

"Hunnicutt married Miss ——, of Lunenburg, some thirty years ago, becoming the owner, by his marriage, of a comfortable farm and quite a large number of negroes. He was a Methodist preacher at the time, but was subsequently expelled from the Conference for doctrinal heresies, and became the founder of a new sect—a branch unrecognized of the Baptist persuasion. He was known for miles around as a cruel master, was undoubtedly a negro trader, and for the slightest offence would buck and gag his slaves, and lay them out in the sun for hours. Finally he sold all his negroes, and invested the proceeds in a stock of groceries, and carried on a small country business (the usual routine of cheating negroes, and encouraging theft,) until he failed.

The closing act of his residence in Lunenburg, and your correspondent's acquaintance with him, was in this wise; He had taken into his house, as a servant, a poor white girl of the country, whom he seduced. Concealment becoming impossible after a while, his wife made discovery and complaint, whereupon this model christian and philanthropist horsewhipped the injured woman, and ran off with the girl he had ruined, leaving his family perfectly unprovided for and dependent upon the charities of the people he now abuses so roundly."

He is just the man to advance "great moral ideas." None better.

☞ The Richmond (Virginia) *Examiner* pokes the following fun at Senator Wilson, of Massachusetts. It says:

Some of our contemporaries speak of this as Mr. Wilson's first visit to Virginia. This is a mistake. He visited the Old Dominion with a number of Northern ladies, *bearing opera-glasses (!)* and certain Congressional brethren, without opera-glasses, on the 20th of July, 1861, and invited his friends to a banquet at Centerville. Beauregard showed the ladies certain dissolving views, not on *their* bills, and the rebels ate the banquet which Mr. Wilson incontinently abandoned.

☞ The Cretan revolution is still progressing with spirit. Several battles have been fought, in all of which the Cretans have had the advantage. Fifteen towns have revolted against the Turks in Epirus, and their united forces are too strong for the troops of the Sultan. The Turkish government offered terms to the revolutionists, but they were rejected.

☞ The Venango Spectator aptly remarks that if Beast Butler recovers damages off "Brick Pomeroy," it will no longer be safe for clergymen to say anything against the character of Judas Iscariot.

The Compiler.

GETTYSBURG, PA.

Monday Morning, May 20, 1867.

"THE BALL ROLLING!"

Democratic Victories in Williamsport and Wilkes-barre!

On Wednesday last, Dr. W. F. Logan, Democrat, was elected Mayor of Williamsport, in this State, by a majority of 87, over Wallace, Radical, who last year had 104 majority. Democratic gain 191!

On the same day, Hon. J. B. Stark, Democrat, was elected Mayor of Wilkes-barre, in Luzerne county, by a majority of 68, over Col. E. B. Harvey, Radical, who last year had 400 majority. Democratic gain 468!

In all quarters the current is turning towards the Democracy. The people are tired of agitation, high taxes and dull business. They know that the Radicals will continue excitement as a means of perpetuating their political power without reference to the good of the country, and hence the defeat of their candidates in all portions of the nation.

The results of these elections, at Williamsport and Wilkes-barre, are certain indications of the "good time coming." The old Keystone is again ready to wheel into the Democratic line, as the second Tuesday of October next will prove.

A Clean Sweep in Kentucky.—The gallant Democracy of Kentucky have made a clean sweep of the State, electing all the State officers and every member of Congress. That is a specimen of the way the tide is running throughout the entire country.

☞The New Albany, Indiana, Democracy elected their entire city ticket, with the exception of one councilman, on the 7th, by a very large majority.—Mr. Sanderson, for Mayor, had over six hundred majority. Democratic thunder seems to be rolling all around the skies.

"THE LOTTERY FRAUD."

The "gift enterprize" sailing under the title of the "Gettysburg Asylum for Invalid Soldiers," is severely denounced by the press in many quarters. It is pronounced a "swindle," and as having for its real object the building up of large fortunes for lottery dealers in New York and Baltimore, with probably large slices for others who have given or now give the project "aid and comfort." We have no means of looking into its machinery, and cannot therefore speak "by the book;" but the public will (as we do) look upon the withdrawal of Gen. Meade and others from all connection with the concern as of great significance. We could clip column upon column from our exchanges on the subject, but the following, from the Philadelphia *Sunday Mercury*, must do for the present. That paper says:

That the law is a fraud of the most aggravated character, is now universally allowed. The gentlemen whose names were used to cover up its iniquity before the Legislature, have withdrawn from all connection with it. General Meade and his associated corporators, excepting Bergen, the tool of Collis, promptly retired from the enterprise as soon as they became aware of its true nature. That these eminent citizens were foully betrayed into lending their countenance to the measure under a plausible pretence of patriotism, is beyond doubt, and it is quite as certain that in disconnecting themselves from a speculation designed, in its origin, to benefit one or two individuals, who intended to sell the charter of the Company to lottery men in New York and Maryland, they have effectually nipped the whole fraud in the bud. The act will surely be repealed or modified by the next Legislature, and nobody is fool enough to risk a dollar on it in the meantime.

FINANCIAL DIFFICULTIES.

The War Department expenses have been so heavy since the first of March, in consequence of the execution of the military satrap bills, that the annual expenditures, it is said, for that branch of the Government alone, will exceed the estimated amount five or six times over. Since March first the expenditures have been—including the Negro Bureau—$25,034,802.87, and it is thought the annual expenses of the department will reach one hundred and twenty or one hundred and fifty million dollars. This shows how costly the Radical "reconstruction" scheme (building up the Radical party) is getting to be to the taxpayers. And the whole burthen will fall upon the Northern taxpayers. The public debt will be largely increased, because there has lately been a large falling off of revenues, both in customs and from internal sources. To meet accruing interest on the public debt the Secretary of the Treasury will be required to borrow money or suspend the payment of bounties for a time. The financial out-look is, therefore, not the most pleasant, and all because the Radical malignants were not content to allow the country to recuperate and let political parties and the darkies take care of themselves.

TRUE ENOUGH.

The New York Times says: When the Democrats were in power "it damaged a man's character to be suspected of selling his vote. Now it makes no difference." True enough. The Democrats elected men to office for their intelligence and integrity, not for their professed love of the negro. Honesty, integrity and capability having been the touchstone to success, it was important that men should maintain unblemished reputations in order to secure position. The rule under the Radical dispensation has been different. Honesty and capability have been left out of view, and devotion to "our party" substituted. The more villainous the means resorted to serve the party the greater claim the person has to political advancement.

Won't See It.—The Radical press refuse to see the true cause for their late defeats. They hunt up all kinds of excuses. If they were honest, they would at once own up to the true cause. The people are disgusted with their party. That is the secret of the great change which is going on all over the country.

☞The spring fashions for 1867 are very attractive—particularly the elections. The Radical party is like the female bonnet—"growing small by degrees and beautifully less."

☞The war excitement in Europe is over. The difficulties between France and Prussia have been arranged by the Peace Congress assembled in London.

EXTRAVAGANT LEGISLATION.

Under this head, the Lancaster *Examiner* gives vent to some virtuous indignation at the corruption and extravagance of the last Radical Legislature. This is the more refreshing, coming as it does from the Radical organ of a very Radical county. Speaking of the Appropriation Bill, as it passed both branches and was signed by the Governor, the *Examiner* says:

"It is a most alarming document for the tax payers of the State to contemplate. For reckless and profligate extravagance it has never been equaled in the history of this Commonwealth."

The editor says, that "since 1864 there has been an increase in salaries in the appropriation bill, and offices alone, involving annually an expenditure of no less than from fifty to a hundred thousand dollars. Every year *some trifle*—a few hundred dollars, or a thousand, is added to somebody's salary, or some 'friend' of somebody, is slipped into a snug place with nothing to do but draw his salary." He then adds:

"We do not intend to compare all the different items of this bill with other appropriation bills, to show how several hundred thousand dollars are recklessly appropriated and how this extravagance has grown in a few years. But we will confine our comparison for the present to two items which we think will be sufficient to convince our readers that this disposition to vote away the hard earned dollars of the tax-payers has gone far enough, and that they had better be looking after those who are sent to legislate for them a little more in the future than they have in the past. We will compare the appropriations of 1867 with those of 1864.

"By section 27 of the appropriation bill of 1864 was appropriated for the payment of the expenses of the Legislature, including pay and mileage of members, clerks, &c., $150,000.

"By section 24 of the bill of 1867 was appropriated for the payment of the expenses of the Legislature, including pay and mileage of members, clerks, &c., $265,000;—showing an increase in three years of the *small* sum of ONE HUNDRED AND FIFTEEN THOUSAND DOLLARS.

"Now let us look at another item. In 1864 by section 23 of the appropriation bill, was appropriated for law judges, not including Philadelphia and Pittsburg, $73,000.

"By the act of 1867, section 20, for the same judges is appropriated $115,000!! making a snug increase of salaries of FORTY THOUSAND DOLLARS for judges alone.

"The two items foot up the round sum of ONE HUNDRED AND FIFTY-SEVEN THOUSAND DOLLARS. We merely give these two items because they serve our purpose to show at what a fearful rate reckless and faithless men can squander the taxes of the people, and by their unnecessary and uncalled for liberality to themselves and others, divert the money of the people from its legitimate and proper use, the payment of the State Debt. Almost every section of this bill shows the same *liberality* towards those who draw their sustenance from the State treasury. It is a question which the people ought to be looking after. The remedy rests with them in the selection of representatives. If men are elected who are either incompetent, venal and corrupt, profligate with their own or other people's money, drunkards or gamblers, it cannot be expected that they will prove either prudent or economical legislators."

CIRCULATE DEMOCRATIC PAPERS.

We do not know of any way—and we speak entirely without regard to personal interest—in which Democrats can do so much towards advancing the success of their principles, as by encouraging in every manner they can devise the circulation of sound and vigorous journals. The more political experience we obtain the better we are convinced that the key-note of ultimate victory is to be found in this idea. It has long been a stigma upon the Democratic party that it never gives its journals as liberal a support as our opponents, and to this negligent spirit may easily be traced the secret of its past defeats, and late prostrated condition. In the canvasses that have taken place since 1860, we were not met with discussion—we were beaten by abuse. Such warfare could not have been successfully waged by our opponents had the circulation of sound Democratic papers through the country been pushed with all possible vigor. The passions of people cannot be made the foundation of political success, if the people are made to listen to argument and reason. This can be effected in no other manner than by a wide diffusion of the Conservative press. The times are threatening. We know not when the storm-clouds may burst. The people should be educated for the probable emergency. We will guarantee that every additional copy of a staunch Democratic paper circulated in any neighborhood, will bring in a harvest of an additional freeman to vote, or, if necessary, a patriot to strike on the side of law and order. Let our friends reflect on this point, and they will see that it is well taken. So says the *Erie Observer*, and we echo every word of it.

☞Forney and Curtin have beat a retreat to Europe, McClure is on his way to the Rocky Mountains, and will not return until after the fall election. He said to a friend in this city, whilst passing, that he thought it a good year to leave the State, as the Republican party did not expect much this fall. It will be so consoling to say the State went Democratic in their absence. Brothers Cameron and Geary have the running of the machine, and had better be about when the bell rings.—*Pittsburg Post.*

Sounding the Death Knell.—The N. Y. *Spirit of the Times*, a radical organ which has been one of the readiest apologists of the Republican party, foresees its downfall, and thus rings the death-knell:

"The Republican majority in Congress, heedless of the lessons of history, and heedless of the inexorable laws of revolution, has taken its course, and must abide the inevitable penalties of error. Those erratic philosophers within its ranks who are already sighing that its majority is too large, need sigh no more. The President will be speedily reinforced, not only by the reconstructed South, but by sufficient defections from the Republican party, to put an end to the two-thirds votes which have heretofore embarrassed him."

☞Wilson, in his stumping tour, tells the Southern people that if they elect Radicals there will be no impediment to Southern representation in Congress. Thad. Stevens replies, in a letter to the press, that Wilson has no right to make pledges for the party and no right to peddle amnesty. Old Thad never did like the Union, and evidently don't want it restored.

☞Prentice, of the Louisville *Journal*, says that the charge that the recent Democratic vote in Kentucky was given by rebels, is calumniously untrue.

NEGRO RIOTS.

The Result of Radical Incendiary Speeches.

A negro riot occurred at Richmond, Virginia, on the 9th. A large crowd of darkies gathered to see a trial between two fire engines. A fight took place among them, and the police arrested one of the combatants. The mob rescued him, and he was recaptured but again rescued by the mob, the negroes throwing paving stones, injuring the captain of police, two sergeants and one private, very severely. The mob swelled to nearly a thousand darkies, when Gen. Schofield sent up a company of soldiers, and went himself, but, although he spoke to the mob and commanded them to disperse, his orders were disregarded. The soldiers then charged bayonets and dispersed the darkies. It is pretty evident the new-born citizens of African descent do not know exactly how to use their new found privileges.

Another Riot.—Richmond, May 12.—Another negro riot occurred in the lower part of the city last night. The negroes attempted to rescue a drunken negro from the police. Bricks, clubs and pistols were used, and four policemen badly beaten. One of them is severely injured. A company of soldiers guarding Libby Prison were called on, and captured eighteen of the rioters.

While this was going on, another negro difficulty occurred on First street. This last mob dispersed upon the persuasion of a colored juryman. To-day mounted soldiers patrolled the streets to keep order, and squads of police were placed at all the churches, in view of threats of the negroes to force their way in amongst the white people.

Last night, Jedekiah K. Hayward, of Massachusetts, was arrested for using language at the meeting on Friday night calculated to create a riot. His language was as follows:

"After Judge Underwood leaves, you can hold high carnival, or what you please. I need not advise you what to do, for great bodies do as they have a mind to."

He was arrested on a warrant from the Mayor, and was bailed in $3,000 to appear to-morrow.

Gen. Scofield told Underwood that he had heard there might be a riot to-morrow, and if there was, he would plant cannon in every street and sweep the rioters down with grape.

A Negro Company Squelched.—General Schofield has ordered the Lincoln Mounted Guards (colored,) to disband, and has prohibited their parades or drills.

Negro Rioting in New Orleans.—A Radical mass meeting was held in New Orleans on Saturday night, the 11th. Five-sixths present were negroes. Judge Kelly, of Philadelphia, made a speech. The negro Leagues marched in procession, and caused considerable disturbance by shouting while on the march. Nothing serious occurred until midnight, when the negroes stopped a car in St. Charles street, cleared it of the white occupants by shoving their clubs through the windows, took possession, and compelled the driver to go ahead. The saloons had been closed at 11 o'clock, by order of the Chief of Police.

Riot at Mobile, following a Violent Speech by Judge Kelly.—Mobile, May 14.—Judge Kelly, of Philadelphia, made a violent speech to a large number of negroes and whites in this city to-night. Everything was remarkably quiet until Mr. Kelly began speaking. He commenced by saying he had come to discuss the right of negroes, which they were entitled to, and he bid defiance to all interruptions and to the world. He had the 15th regiment at his back, and if they proved inadequate the whole United States army would not.

Judge Kelly continued in this strain for some time, using language, expressions and incendiary sentences which were calculated to invite riotous demonstrations. He was here interrupted by a white man on the outskirts of the crowd, whom the police promptly arrested.

The excitement caused by the speech become very great, and presently a shot was fired, but by whom is not known. The firing then became general. A large majority of the shots were fired by the negroes, as but very few of the whites present were armed, having attended the meeting to listen quietly to Mr. Kelly, and without the remotest idea of causing a riot.

The police succeeded in quelling the riot before the arrival of the companies of the 15th regiment, who were ordered out by Col. Sheppard, and appeared as soon as possible, but not until the meeting had been dispersed.

Everything is quiet, and there is little or no excitement at midnight.

Three men were killed, two whites and one negro, and a number, including a policeman and a white boy, were wounded.

Another Riot in New Orleans.—The negro stevedores on the levee at New Orleans got up a riot among themselves on Thursday. The police interfered to preserve order, but were badly beaten by the negroes. The military were called out to aid the police. Gen. Mower said to the negroes: "The United States government will, if necessary, protect you through the military; but you will not be protected in wrong doing."

Riot at Galveston.—At a meeting at Galveston, Texas, on Wednesday, a negro speaker drawing offensive comparisons between the races, was interrupted by the United States soldiers, and indiscriminate shooting commenced, a majority of the negroes appearing to be armed.

—Facts like these should set the Northern people to thinking. These outrages are the natural fruits of Radical teachings, and if they should culminate in a war of races, the responsibility for its horrors will justly fall upon all who endorse those teachings.

RELEASE OF JEFFERSON DAVIS.

In obedience to a writ of *habeas corpus*, granted by the President of the United States, Jefferson Davis was handed over to the United States Circuit Court, in session at Richmond, on Monday last, for trial under the indictment charging him with treason. The District Attorney then said it was not the intention of the government to try him at this session of the Court. Mr. O'Conor, one of Davis' counsel, then asked that he be admitted to bail. Judge Underwood granted the request and fixed the amount of bail at $100,000. Sureties were promptly offered and accepted—the bond signed and Jefferson Davis was once more set free.—Among the sureties are Horace Greely and Augustus Schell, of New York, A. Welsh and D. K. Jackman, of Philadelphia. Mr. Davis and family left the same evening for New York, on their way to Canada, to visit several of his children.

☞The "Democratic element" seems to be rising in the West. Our friends there have carried many of the large towns in the municipal elections, which they have not before carried for years. The Radical papers there, as well as here, have given up the business of writing obituaries of the Democratic party, finding that it is too lively a corpse for their purpose. To their minds it seems to have more lives than are popularly attributed to a cat. At any rate, though killed and buried so often, it seems good for a long life yet.

☞Failures of prominent business houses in the larger cities are of almost daily occurrence. Is the *crash* (the natural sequence of Radical iniquity) at hand?

☞The Democrats of Kentucky have carried all the Congressmen. This is a gain of two, and gives us nine members instead of eight. This victory added to Connecticut will make a change of ten in the Rump. Everywhere Radicalism is on the descending grade.

TOWN AND COUNTY AFFAIRS.

☞Hons. A. J. Glossbrenner and W. H. Koontz have our thanks for congressional documents.

☞An interesting contribution on Stock Raising will be found on our first page. We hope to hear from "Eaglewood" often.

☞Rev. Dr. Seiss, of Philadelphia, will deliver the biennial Address before the Phrenakosmian Society of Pennsylvania College, at the approaching Commencement.

BANK TELLER.—Maj. Henry S. Benner has been elected Teller of the Gettysburg National Bank. A first-rate selection, as Mr. B. is an excellent clerk, correct in everything, and of very obliging disposition. We are sure that all having dealings with the Bank will be pleased with the new Cashier and Teller.

NEWSPAPER CONSOLIDATION.—Messrs. E. McPherson and D. A. Buehler have purchased the *Star* establishment, and have effected an arrangement with Mr. Harper, of the *Sentinel*, for a consolidation of the two papers, the title to be the *Star & Sentinel*. The new firm will consist of Messrs. Harper, McPherson & Buehler. As we have been compelled to cross quills with all three of these gentlemen every fall during the last twenty years, there will be little actual change in the newspaper "situation." Whilst we wish them success in a business way, we trust, and believe, that an enlightened public judgment will always frustrate their political designs.

SUDDEN DEATH.—Mr. Daniel Gobrecht, an esteemed citizen of Union township, this county, died very suddenly on Friday week. Whilst engaged in ploughing, he fell instantly dead, though when going to his work seemed to be in the enjoyment of usual health. He was 50 years of age, and leaves a wife and eight children to mourn their sudden loss of a kind husband and father.

☞We learn from the Baltimore *Sun* that Mrs. Margaret Sturgeon, widow of the late Lindsey Sturgeon, deceased, formerly of Adams county, died in that city on the 29th ult., in the 80th year of her age. The deceased was well known in the vicinity of New Oxford, where she was born and lived the greater part of her life, and where she left a large number of friends and acquaintances. Her father, Mr. Kuhn, was the founder of the now thriving and beautiful village of New Oxford.

DIDN'T PASS.—The statement that a bill was passed by the last Legislature authorizing the recording of soldiers' discharges, is incorrect, as it only passed one branch—says a dispatch from Harrisburg.

RAILROAD ELECTION.—At an election held by the stockholders of the Hanover Branch Railroad Company, on Monday, the following officers were elected for the ensuing year:

President—Capt. A. W. Eichelberger.
Managers—John L. Jenkins, Joseph Althoff, Henry Wert, Reuben Young, Joseph Dellone and David Wertz.

THE INDIAN DOCTOR, known as the Lung, Throat, Heart and Blood Physician, will remain one week longer, until the 25th of May, at the Eagle Hotel, where he will examine all manner of diseases free of charge. Such as suffer from old chronic diseases would better call and see the Doctor before he leaves.

SHEAFFER'S NEW GALLERY AT HANOVER, is the place to have your Pictures taken. None better, none cheaper.—Money refunded if not satisfactory.

SPECIAL NOTICE.—Dr. S. Rogers, of Philadelphia, will be at McClellan's Hotel, Gettysburg, from Saturday the 18th, to Tuesday the 21st of May instant. For further particulars see advertisement in another column, headed "The Lame Walk, the Deaf Hear!" We copy the following from the *Hagerstown Mail*:

Remarkable Case.—Mr. Samuel Winders, of Clearspring, in this county, having had a bug to crawl into one of his ears several years ago, suffered greatly for some time, and eventually lost the hearing entirely of that ear, and partial deafness of the other. He called on Dr. S. Rogers, of Philadelphia, while at the Washington House, in this place, on Tuesday last, who removed the bug, (of course dead,) with the surrounding secretion, and caused him to hear again in twenty minutes operation. We have heard the Doctor spoken of in the highest terms in reference to his treatment of other diseases.

THUNDER AT STEVENS' DOOR!

The result of the election in Lancaster city, the home of Stevens, is ominous. It goes to prove that the people are thinking, and that they are determined to show their disapproval of the course of the disunion blood-hounds as often as opportunity presents. It is a scathing rebuke to the agitator, Thad. Stevens, and a very proper answer to his "mild confiscation" scheme. Old Thad, we see it stated, was exceedingly anxious about this election, and distributed money *with a reckless liberality, hoping*, by this means, to buy an endorsement of his treasonable course in Congress. He was sanguine of success, and so wrote to his negro-equality *friends* a day or two before the election. But the people of Lancaster city, firm, defiant and angry, spurned Stevens' money as well as his hell-born schemes. They turned out in their might, met the disunion demagogues and traitors in every ward, and routed them, horse, foot and dragoons. The majority for Mayor Sanderson (570) is a gain of 241 since last October. This result, we repeat, is ominous—a good indication. The re-action has commenced—the whirlwind is heard in the distance, and ere long the "traitors at the other end of the line" will be put to flight, and an indignant people will consign them to the obscurity they deserve.—*Carlisle Volunteer.*

THE MOBILE RIOT.

Some of the Radical newspapers have been charging the Agent of the Associated Press with the transmission of an unfair account of the riot which occurred at Mobile, while Kelly was indulging in his brutal and incendiary harangue. *They desire to throw all the blame upon* the white men and to relieve the negroes and Kelly from blame. The Philadelphia *Inquirer*, radical as it is, takes another view of the matter. It has a correspondent traveling with Kelly, who denies that the disorder was the result of any concert of action on the part of the whites.

The whole disturbance arose out of Kelly's own conduct, and he is chiefly responsible for the loss of life which occurred.

☞The Winstead (Ct.) Herald (Republican) admits that the real cause that defeated the party in Connecticut was its Radicalism. It says the issue was "negro suffrage," and that this defeated the party.

"Not Bad to Take."

Of all the medicines ever introduced to the public, none give such general satisfaction as these Pills, particularly for controlling the Liver. As this is conceded to be the most important in reaching the desired change, and regulating those functional irregularities, no family should be without them. The tonic properties of which they consist are of such an order as to cause a discharge of the corrupt diseases from the system, and in cases of Billiousness, in all its forms, no Pills are as good. By the use of them, Bad Blood becomes eliminated, and is made good and pure. The bowels are kept in general order, and they rouse up your digestive organs, giving new life to the invalid, satisfying him in his own mind that Radway's Regulating Pills are the one and only sure remedy for the many diseases incumbent upon the human family. They fight against disease and the doctors, and never allow life to be sacrificed by delay. Mild in operation, purgative in effect, satisfactory to the general organs. Dyspepsia, Diarrhœa, Dysentery, Diptheria, Asthma, Rheumatism, Gout, Influenza, Headache, Pleurisy, Lumbago, and all like incident diseases, give way to the power and effect of these purely vegetable Pills, tasteless in effect, being coated with sweet gum, and as Oliver Goldsmith once said of a prescription, "not bad to take."

Dr. SCHENCK'S PULMONIC SYRUP.

This great medicine cured Dr. J. H. SCHENCK, the Proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. SCHENCK makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months healthy, robust persons. Dr. SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC, and MANDRAKE PILLS are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. SCHENCK, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of Consumption, and the other as he now is, in perfect health—are on the Government stamp.

Sold by all Druggists and Dealers. Price $1.50 per bottle, or $7.50 the half dozen. Letters for advice should always be directed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price $1, sent by Mail or Express, on receipt of an order by

A Card to the Ladies.

DR. DUPONCO'S GOLDEN PERIODICAL PILLS FOR FEMALES. Infallible in correcting Irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and always Successful as a Preventive.

It is now over thirty years since the above celebrated Pills were first discovered by Dr. DUPONCO, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with unparalleled success, in every case, and it is only at the urgent request of the thousands of ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family where health will not permit it.

ONE PILL IS A DOSE.

Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition lest they "invite miscarriage," after which admonition, the Proprietor assumes no responsibility, although their mildness will prevent any mischief to health, otherwise the Pills are recommended as a MOST INVALUABLE REMEDY for all those afflicting complaints so peculiar to the sex.

ONE BOX IS SUFFICIENT.

10,000 Boxes have been sold within Two Years. Ten Thousand Boxes sent by Mail, both by myself and Agents, to all parts of the world, to which answers have been returned, in which ladies say, nothing like the above Pills have been known since the Science of Medicine dawned upon the world, in Removing Obstructions and Restoring Nature to its Proper Channel, Quieting the Nerves and bringing back the "Rosy color of Health" to the cheek of the most delicate.

Price $1 per Box. Six Boxes $5.

Sold by JOHN S. FORNEY, Druggist, Sole Agent for Gettysburg, Pa.

Ladies, by sending him $1 through the Post Office, can have the Pills sent, (confidentially,) by Mail, to any part of the country, "free of postage."

Sold also by J. Spangler, Chambersburg; G. W. Neff, York; Coleman & Rogers and Brown Brothers, Wholesale Agents, Baltimore, and S. D. Howe, Proprietor, New York.

Know Thy Destiny.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a life-like picture of the future husband or wife, of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. 223, Hudson, N. Y.

The Lame Walk,

THE DEAF HEAR.

DR. S. ROGERS, of Philadelphia, the successful ELECTROPATHIC AND BOTANIC PHYSICIAN AND LECTURER, will be at McClellan's Hotel, in Gettysburg, from Saturday, the 18th, to Tuesday, the 21st of May, 1867, where he can be consulted on all diseases of male or female. The Doctor's references include many persons of the highest respectability and standing, in Philadelphia, Baltimore, Lancaster, Chambersburg, Harrisburg, and other places.

His method of curing diseases by electricity, in connection with Botanic Medicines, is in direct harmony with Nature's Laws. By the use of the Electro-Magnetic Machine, he is not only able to restore the circulation to its proper balance in the system, but also to form a correct diagnosis of disease, having no guess work at all.

His Medicines are all taken from the vegetable kingdom. No minerals used.

Office-hours, 9 to 12 A. M., and 2 to 6 P. M.

☞Consultation Free.

N. B.—The Doctor is the proprietor of the Electro-Magnetic Oil and Liver Pills, which can be had at the Hotel at any hour of the day. Price of the Oil, $1 per bottle. Liver Pills 50 cents per box.

New and Cheap Clothing

AT BRINKERHOFFS.

STACKS OF THEM!

J. BRINKERHOFF, corner of the Diamond and York street, has just returned from the city with an unusually attractive assortment of

CLOTHING FOR SPRING & SUMMER WEAR,

which he will sell at such prices as cannot fail to take them off very rapidly. Call and judge for yourselves. To look at the excellent material, tasteful cutting, and neat and substantial sewing, and then to get his low prices—callers cannot help but buy, when they see it so much to their interest to do so.

He has Coats, Pants, Vests, of all styles and materials;

Hats, Boots and Shoes;

Shirts, of all kinds, Hosiery, Gloves, Handkerchiefs, Neck Ties, Cravats, Linen and Paper Collars, Suspenders, Brushes, Combs;

Trunks, Valices, Umbrellas, Pocket Knives, Segars, Smoking and Chewing Tobaccos, Pipes, Stationery, &c.;

Clocks, Watches, Jewelry, with a thousand and one other articles, entirely too numerous to detail in a newspaper advertisement.

He asks the attention of the public to his new stock, confident that it will please—and no one can or will sell cheaper. Don't forget the place—corner of York street and the Diamond, Gettysburg.

A Lecture to Young Men.

JUST PUBLISHED, in a Sealed Envelope. Price Six cents. A Lecture on the Nature, Treatment and Radical Cure of Spermatorrhœ, or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage generally, Nervousness, Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c.—By ROBERT J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequence of Self-Abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. This Lecture will prove a boon to thousands and thousands.

Sent under seal to any address, in a plain sealed envelope, on the receipt of six cents, or two postage stamps. Also Dr. Culverwell's "Marriage Guide," price 25 cents. Address the publishers,

Hubbard's

SELF-RAKER.

THE undersigned are agents for this celebrated Combined Self-raking Reaper and Mower. This machine has two driving wheels, hinge-joint and folding-bar, is very simple in construction, and is considered by those who have used them to be equal in grass to any light machine made for mowing only. It cuts 4 feet 8 inches in grass, and 5 feet 6 inches in grain, is a rear-cut side-delivery, capable of cutting a whole field of grain without binding a sheaf, and does the most satisfactory work in lodged grain, to be worked with two horses. We claim this Self-raker to be the best in existence. Farmers reading over the different advertisements will come to the conclusion that all are best, but we will give them our reasons for calling ours the best:

1st. This Self-raker has four rakes (no blanks or fans). The driver, by means, of a small lever in front of him, can make either rake sweep the platform at his will. You will see by this that it makes no difference how far you have to drive, you can always have a full sheaf, thereby saving binding, gathering or dividing sheaves.

2nd. If your grain is one thickness so that it will permit of making a sheaf each revolution of the Rake or you wish to put the driver on the horses, you can do so by simply drawing one bar, and still keep the rakes all on to drop into the lodged or tangled grain. Here is one point to which we wish to draw your attention. Take notice where all these rakes strike into the grain and then compare them with blanks or reels on other Self-rakers.

3d. If you wish your oats on a swath, tie your lever fast, and it will do its work perfectly and you will be safe for wet weather.

4th. All men know that in a Hand-raking Reaper that the reel must be changed for different kinds of grain to make it reel on platform, and so must a Self-raker to make perfect work in extreme tall or short grain. This Rake has this most desirable and indispensable improvement, which no other rake has. This is done by changing two set screws in rake-read which works on a pivit. With a combination of these four desirable points, it has been unanimously acknowledged by all disinterested and practical machinists to be decidedly simple and durable in its construction.

At the great National Field Trial, held at Auburn, New York, last July, which is conceded to have been the largest and severest trial ever held in the United States, lasting several weeks, under the entire management of the New York State Agricultural Society, this machine was awarded the Gold Medal for the best Combined Self-raking Reaper and Mower, (Class No. 4). Since the great trial, different machines are claiming Medals, and most persons are in a fog about it. We will explain: There were about 50 different machines entered for the different Medals, and they were classed as follows: The best machine in each class was awarded a Medal, and the second best a prize of $25.

Class No. 1, Light Mowers; No. 2, Reapers, Hand Rake, (for grain only); No. 2½, Reapers, Self-rake, (for grain only); No. 3, Combined Reaper and Mower (Hand-rake); No. 4, Combined Reaper and Mower, (Self-rake) Hubbard's; No. 5, Combined Hand and Self-raking Reaper and Mower, (thrown out on account of inferior work.)

At the Field Trial held by the Center County Agricultural Society, on McAllister's farm, last July, Hubbard's Combined Self-raking Reaper and Mower was awarded the highest premium for the best work done. See Circulars for report. All we ask is farmers to come and see this machine for themselves. We warrant them to give entire satisfaction in all respects. Sample machines on hand. Extras always on hand. Branch Shop at York, Pa. Address Granite Hill Post-office, Adams county, Pa.

☞ Also Pratt & Smedley's Patent Horse Rakes on hand, built by Geo. W. Brant & Co., Columbia, Pa.

HENRY THOMAS & SON, Agents.

Copied from Report of Auburn Field Trial.

AT the Great National Field Trial at Auburn, N. Y., the Committee on the *quality of work*, assumed the No. 40 to represent the best work that can be done. The No. 30 as representing the best work that can be done with a Hand Scythe. The No. 20 as inferior to any work that would be tolerated by a respectable farmer. The graduation of work expressed by numbers intermediate.

Class First, Independent Mowers, the three best Machines out of ten were marked as follows: No 1, 40; No. 2, 39; No. 3, 32.

It will be seen by reference to the Judges' Report, on page 26, that Hubbard's Combined Self-raker drew 38 in grass, which is but a trifle less than the two best Independent Mowers, manufactured expressly for mowing, while all the rest came far short of it. On page 29 will be found that it was marked 39 in Sheldon's lodged wheat, whilst no other machine received this mark. On page 60, on description, it says, the rake-teeth can drop down to a level with the guards to catch lodged grain, and pass over a rake guard, to prevent the teeth from dropping into the knife and raising quickly afterwards. There are also slats outside of the rake to clear the divider. The rake track, working on a pivot, by this arrangment gives to the machine the ability to work in the tallest grain or shortest clover seed.

The work of HUBBARD'S RAKE excited much admiration upon the ground. Its simplicity and easy adjustibility are worthy of high commendation, and it is the only one by which oats can be swathed.

Committee on draft—tested by dynameter, it was the lightest draft by 32 pounds—under all others.

Weight as Mower 700 pounds; as Combined Self-raker, 1,005 pounds.

☞ Persons wishing to purchase Hand-rakers and afterwards have the rake attached, can be supplied by us; also Mowers to be had ready to attach to rake hereafter.

The National

REAPERS AND MOWERS.

Hoffheins' Patents.

The No. 1 Machine has two Driving Wheels, Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draft and durable. cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Raker and Side Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut Grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels is a Self-Raker, and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his *left upon a foot-step* he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion *or speed of the machine.*

All Machines warranted to give satisfaction! For further information apply to

SHIREMAN'S

NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH

Horse Rake!

Patented September 9th, 1862, and Re-issued December 6th, 1864.

This Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the *Raking and Discharging, by the driver moving a lever* a few inches, which throws it in gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the *Raker has hardly any work to do at all!*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years, and given the best kind of satisfaction.

OHIO AND BUCKEYE PATENTS.

At the great trial of Reapers and Mowers at Auburn, N. Y., in July last, by the New York State Agricultural Society, this Machine was awarded the preference over all others in Class No. 5. This class was the most important of any, as it embraced Mowing and Hand and Self-raking Reaper in the same Machine.

This Machine has been awarded Medals and first Premiums by the Pennsylvania and Iowa State Fairs, and by hundreds of County Fairs in all parts of the country. This Machine took the first *Premium at the Adams County* Agricultural Fair held at Bendersville, September, 1866. Also,

BALL'S OHIO & RUSSELL'S SCREW POWER.

Both first-class Machines, having sold a number of these Machines in the last three years. They have given general satisfaction wherever used. We ask farmers to call and examine these machines before purchasing elsewhere, as they will be able to make a better selection. We could produce quite a number of certificates from some of the best farmers in the county, but deem it unnecessary, as we warrant these machines to give satisfaction with a fair trial, or no sale. *Insured for one season.*

Extras always kept on hand. We have made arrangements to have repairing done when needed at any time and on moderate terms.

With the above we have for sale a number of valuable Farming Implements.

SULKY CORN PLOUGH,

Can be used for ploughing and cultivating corn—finishing one row at a time. Can also be used for loosening up corn ground or putting in seeding. By raising the front shovels it can be used for marking out corn ground—marking two rows at a time. A Cornplanter can also be attached, planting two rows at a time.

CORN CRUSHERS,

For crushing corn in the ear or shelled.

STEEL COMPOSITION BELLS,

For Schools, Churches, Farms, &c.

STEEL PLOUGHS, SMYTH'S PATENT.

HAY RAKES,

An article every farmer should have—the best in the market, hand or self-discharging.

GRAIN DRILLS, (Willoughby's Patent,) with Crowell's Guano attachment.

Harrisburg GRAIN FAN, (Reynold's Patent,) considered the best mill ever in use in this county.

Any of the above machines can be had by calling on or addressing the subscriber, 2 miles from Gettysburg, on the Harrisburg road, where specimen machines can be seen.

Brinkerhoff's

CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

THE

HOWE SEWING MACHINES.

FOR FAMILIES AND MANUFACTURERS.

THE HOWE LOCK STITCH

THESE WORLD-RENOWNED SEWING MACHINES

Are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world. These machines are made under the immediate supervision of the President of the Company, ELIAS HOWE, Jr., the original inventor of the Sewing Machine. They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress-Makers, Tailors, Manufacturers of Shirts, Collars, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, etc. They work equally well upon silk, linen, woollen and cotton goods, with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed. On Shoe and Leather work it is admitted to have no equal.

THE QUALITIES WHICH RECOMMEND THEM ARE:

1. Beauty and Excellence of Stitch, alike on both sides of the fabric sewed.
2. Strength, Firmness and Durability of Seam that will not Rip or Ravel.
3. Economy of Thread.
4. Attachments and wide range of application to purposes and materials.

The stitch invented by MR. HOWE, and made on this Machine, is the most popular and durable, *and all Sewing Machines are subject to the principle invented by him.*

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY
FOR IRREGULARITIES!

I have tested these Drops in my own practice, over ten years, and do not hesitate to say, that nothing has yet been developed by medical research, that acts so powerfully, positively, and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to-day.

Although so powerful and positive, they are perfectly harmless, and may be used at all times, except when specially forbidden in the directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear of the first instance of failure. I could give you testimonials of their efficacy from all over the northern and western States, were they not in their nature private. Over 100,000 bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that where one bottle is thus used, ten may fall into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Leucorrhea, or the train of diseases that follow, I would say, try a bottle of DR. LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by enclosing the price to C. G. CLARK & CO., New Haven, Conn., General Agents for the United States and Canada.

NEW FIRM,

AT THE OLD STAND.

[ESTABLISHED IN 1817.]

I have associated with me, in business, my son, John F. McCreary, under the firm and style of D. McCreary & Son, and I desire to say to my old friends and the public generally that since the war, the manufacture of Saddles, Harness, Collars, &c., has been revived at the old established and well known stand on Baltimore street, one square south of the Court House, Gettysburg, Pa.

Having had an experience of 40 years in this establishment, I feel assured, that, with renewed attention to business, we can still further merit and receive a full share of public patronage.

DAVID McCREARY.

With increased facilities for conducting our business, we are better prepared than ever to satisfy the wants of all those who may need anything in our line. We especially call the attention of Farmers and others to the superior quality of our

Plain or Quilted Seat Horn Saddles,	Side Leathers,

By the Use

OF CHASTELLAR'S WHITE LIQUID ENAMEL for improving and beautifying the complexion.

The most valuable and perfect preparation in use, for giving the skin a beautiful pearl-like tint, that is only found in youth. It quickly removes Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin, kindly healing the same, leaving the skin white and clear as alabaster. Its use can not be detected by the closest scrutiny, and being a vegetable preparation is perfectly harmless. It is the only article of the kind used by the French, and is considered by the Parisian as indispensable to a perfect toilet. Upwards of 30,000 bottles were sold during the past year, a sufficient guarantee of its efficacy. Price only 75 cents. Sent by mail, postpaid, on receipt of an order, by

The World Astonished

AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural power unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Reparator Capilli.

Throw away your false frizzles, your switches, your wig—
Destructive of comfort and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. FOUTZ'S
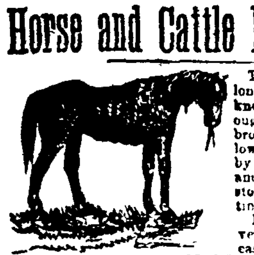
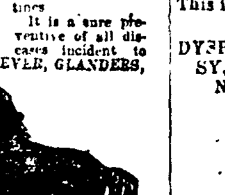
CELEBRATED
Horse and Cattle Powders.

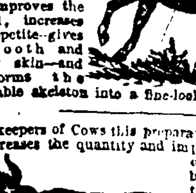


This preparation, long and favorably known, will thoroughly reinvigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.



To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.



In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

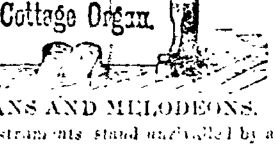
ESTEY'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR



Cottage Organ.

ORGANS AND MELODEONS.

These Instruments stand unrivalled by anything found in this Country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounce them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

THE
PERUVIAN SYRUP
IS A PROTECTED SOLUTION OF THE
Protoxide of Iron,

a new discovery in medicine which STRIKES AT THE ROOT OF DISEASE, by supplying the Blood with its VITAL PRINCIPLE, OR LIFE ELEMENT—IRON.

This is the secret of the wonderful success of this remedy in curing

DYSPEPSIA, LIVER COMPLAINT, DROPSY, CHRONIC DIARRHŒA, BOILS, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in A BAD STATE OF THE BLOOD, or accompanied by DEBILITY, or A LOW STATE OF THE SYSTEM.

Being free from Alcohol in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor and new life into all parts of the system, and building up an IRON CONSTITUTION.

DYSPEPSIA AND DEBILITY.

From the Venerable Archdeacon Scott, D. D.

DUNHAM, Canada East, March 24, 1865.

* * * "I am an inveterate Dyspeptic of more than 25 years' standing."

* * * "I have been so wonderfully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

One of the most DISTINGUISHED JURISTS in New England writes to a friend as follows:

"I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a NEW MAN of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at anytime during the last five years."

An EMINENT DIVINE of Boston, says:

"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

☞THOUSANDS have been changed by the use of this remedy; from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen, and others, will be sent FREE to any address.

☞See that each bottle has PERUVIAN SYRUP blown in the glass.

WISTAR'S BALSAM
OF
WILD CHERRY

HAS BEEN USED FOR NEARLY HALF A CENTURY, WITH THE MOST ASTONISHING SUCCESS IN CURING Coughs, Colds, Hoarseness, Sore Throat, Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma, and every affection of THE THROAT, LUNGS, AND CHEST.

CONSUMPTION,

which carries off more victims than any other disease, and which baffles the skill of the physicians to a greater extent than any other malady, often

YIELDS TO THIS REMEDY

when all others prove ineffectual.

AS A MEDICINE,

rapid in relief, soothing in effect, safe in its operation,

☞IT IS UNSURPASSED!☜

while as a preparation, free from noxious ingredients, poisons or minerals; uniting skill science and medical knowledge; combining all that is valuable in the vegetable kingdom for this class of disease, it is

INCOMPARABLE!

and is entitled to, merits and receives the general confidence of the public.

SEYMOUR THATCHER, M. D., of Herman, N. Y., writes as follows:

"WISTAR'S BALSAM OF WILD CHERRY gives universal satisfaction. It seems to cure a Cough by loosening and cleansing the lungs, and allaying irritation, thus REMOVING THE CAUSE, instead of drying up the cough and leaving the cause behind. I consider the Balsam as good as any, if not the best, Cough medicine with which I am acquainted."

The Rev. JACOB SECHLER, of Hanover, Pa., well known and much respected among the German population of this country, makes the following statement for the benefit of the afflicted:

Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparation—WISTAR'S BALSAM OF WILD CHERRY—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefitted by it.
